HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitae

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES
And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the agent, however, assures the public in all sincerity, that this medicine is not only perfectly safe, and free from all other deleterious ingredients, but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to Six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less than One Bottle;

Price $3 per bottle, accompanied by a Treatise.

BITTER SWEET—A Poem by J. G. Holland, author of Timothy Titcomb's Letters, &c. [illegible] A. BARTLETT'S.

THE
"GREAT REPUBLIC"
MONTHLY.

To the Public, the Book and Periodical Trade, and the Press.

WE have the honor to announce that we shall issue, on or about the 1st of December next so as to be in season to command the early attention of the public and the periodical trade, the First Number of a New Illustrated Magazine, to be called THE "GREAT REPUBLIC" MONTHLY.

It is intended to make this Magazine superior in every respect to any thing ever before issued in this country. The general scope of its character can be best understood by its name. IT WILL BE THOROUGHLY NATIONAL—IN NO WISE SECTIONAL OR SECTARIAN, AND WHOLLY IMPERSONAL. It will offer to the writers and thinkers of this Union a common field, where they can meet on the highest ground of cotemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one, covering, among other grounds, Essays, Sketches, Humorous Tales, Stories, Historical Incidents, Reviews, Critiques, Biographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Stanzas, Sonnets, Music, Correspondence, Gossip, etc., etc.

The Magazine will be profusely illustrated in the highest style of wood engraving.

The Literary department will present greater variety, combined with more thorough excellence, it is believed, than ever before offered to the American public in a single periodical. The following authors and popular writers are included in the list of contributors engaged:

In addition to the foregoing brilliant array of American authors, there are a large number of first class writers engaged, (among them some of the most distinguished of the day), who are compelled, from pre-existing engagements, or other causes, to withhold their names for the present, but who will, nevertheless, contribute frequently to our pages. We would also announce that we shall add to our list of contributors the names of other distinguished authors, as soon as satisfactory arrangements can be completed.

Each number will contain an original piece of Music, composed expressly for this work.

Of the superior excellence of the Magazine in every respect, and of the certainty of its permanent success, very little more need be said.

The Terms and general conditions of the Magazine will be as follows.

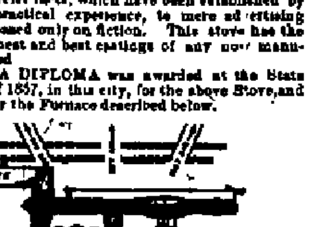
A DIPLOMA was awarded at the State Fair of 1857, in this city, for the above Stove, and also for the Furnace described below.



The BARSLOW TUBULAR AND SPIRAL FURNACE, the VERY BEST FURNACE EVER MADE—which for the simplicity of its parts, which are very few and nicely adjusted, and their adaptation to their several purposes, the ease with which the fire can be kindled and extinguished, and the ashes sifted without difficulty, and obviating dust about the cellar, cannot be excelled. So complete are they, indeed, that no chance whatever is desirable in them, and they do not require to be patented in England or France, as there are no Furnaces used in either country, but open grates for burning coal.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILADA,"

and having the name of JAS SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned stripes, and a large semi circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright. Also,

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

STATE OF MAINE.

EXECUTIVE DEPARTMENT,
Augusta, Nov. 12, 1858.

An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta, on *Wednesday*, the fifteenth day of December next.

Attest,
NOAH SMITH, Jr.,
Secretary of State.

The Douglas Creed, "By Authority."

The Chicago Times has a leader assuming to set forth the "position of the Democracy of Illinois" with respect to the Slavery issues of the day, and affirming the complete identity of Mr Douglas's personal convictions with those of his party. The article could not have been put forth without the Senator's personal approval. It is to all intents a political manifesto. It takes the form of a re-statement and revision of the positions assigned to Mr. Douglas by "*The South*," and its material positions are as follows:

"1. The Democracy of Illinois affirm the original and essential inferiority of the negro.

"2. They deny that the negro was intended to be embraced within the abstractions of the Declaration of Independence, and assert that the right to freedom and equality was predicated only for the dominant race of white men.

"3. They deny that negroes are citizens of the United States.

"4. They affirm the compatibility of a Confederacy of free and slave States, and the possibility of their harmonious co-existence under a common Constitution.

* * * * *

"7. They support the decision of the Supreme Court in the Dred Scott case, in the sense that it guarantees to the owners of slave property an equality with owners of other property in introducing it into the Territories; contending, also, that as slave property is thus placed on an equal footing with other property, it, like all other property, must be subject to all such local laws of the Territory as do not infringe upon the Constitution of the United States, that slave property being thus placed on an equality with other property, if it require higher and further affirmative legislation for its protection and security than is afforded to other property, and the Legislature of the Territory should decide not to discriminate in its favor to that extent, then the failure to obtain this higher protection than is afforded to other property, is a misfortune attending that description of property for which the Democratic party have no remedy and are not responsible.

* * * * *

"10. They protest their opposition to Black Republicanism at every point and upon every principle.

"11. They pledge themselves to fidelity to the organization, principles and nominees of the Democratic party."

It will be seen from the extra labor bestowed upon proposition 7, that Douglas is trying hard to construct a pro slavery platform so disguised and mystified as to be received without very strong disgust at the North. The thing "can't be did," however. Mr Douglas has got to be either for or against freedom. The dodge will not answer. If he supports the Dred Scott decision, or the positions taken in that decision, he cannot be received or sustained as a friend of freedom. No man can consistently admit that a slaveholder has a "*constitutional right*" to carry his chattels into a territory and hold them there, and then say that the people of the territory have a right to deprive him of that property. We predict that the Little Giant, in attempting to stretch his legs so as to stand upon the two stools, will tumble incontinently to the ground.

In regard to the new and authoritative version of proposition 7, the Tribune says:

> To our mind, it amounts to just this—"Any slaveholder has a constitutional right to take his slaves into any Federal territory, and there hold them in Slavery so long at least as the territorial condition is maintained; but if the people of said Territory do not see fit to pass laws affirming the right aforesaid, the slaves may run away from their rightful owner, and he cannot recover them, but must pocket the loss." In other words, "though the slaveholders are right all through in claiming an indefeasible right to plant Slavery in the Territories, yet there is a way of circumventing and defeating the practical assertion of that right." If this paraphrase does Mr. D. injustice, our readers will see and correct it. And if it does not, has not "Popular Sovereignty" been reduced by its eminent propounder to a last match for "the tip end of no thing, whittled down to a point?" Compare this lame and impotent conclusion with the "stump speech in the belly" of the Nebraska bill, and judge how the professions upon which that bill was justified have been made good!

This is true enough, as to the popular sovereignty pretence. But there is another thing more important than this. The Douglas platform admits the ultra Southern doctrine that slave property is, *by the constitution*, placed "ON AN EQUAL FOOTING WITH OTHER PROPERTY IN THE TERRITORIES." We have thus much plainly (although we think unguardedly) stated. The Douglas creed declares, then, that the National Constitution makes negro slaves as much property in the Territories AS HORSES OR OXEN. John C. Calhoun never contended for anything more ultra than this DOUGLAS DOCTRINE OF 1858. Nothing more than the recognition of this doctrine is necessary to secure slavery in the Territories. NO LEGISLATION IS IN FACT NEEDED, either by Territorial Legislatures or by Congress—for if slaves are there as *property*, under the Constitution, all the incidents of "*property*" attach to them. It is not necessary in a law against larceny to specify every article to which it shall apply. Anything which is property is the subject of larceny,—and consequently to steal slaves would be larceny—to convert them (in a legal sense) would be trover, and the usual remedies would be open to the slave owner at once.

Hon. Israel Washburn said in one of his speeches in 1856, in reply to this same idea of Mr. Douglas's:

> But he says there is little practical difference between this doctrine and the dogma of popular sovereignty; for, if the "people of a Territory do not want Slavery, they will not pass laws for its regulation and protection, and without such laws it would not prosper." The gentleman failed to tell us why such laws would be very essential to the slaveholder, since his property is established and protected by the highest law in the country, that of the Constitution. Besides, it may well be supposed that, if the Constitution carries Slavery into the Territories, it carries it with the incidents of that relation.

New Publications.

THE HISTORY OF THE RELIGIOUS MOVEMENT OF THE EIGHTEENTH CENTURY CALLED METHODISM, considered in its different denominational forms, and its relations to British and American Protestantism. By Abel Stevens, LL. D. Vol. I. From the origin of Methodism to the death of Whitefield.

Such is the title of a work published a few weeks since by Carlton & Porter, of New York. A very readable book indeed. The first chapter is devoted to a discussion of the "Standpoint of Methodism in the history of Christianity," and is worthy of the careful consideration of all students of ecclesiastical history. The secular or ecclesiastical historian, can no longer ignore Methodism, which has been, and still is, one of the grand scenes in the world's sublime and awful drama. Macaulay, the prince of British reviewers, once said, that the man who should write the history of England and ignore Wesleyanism, would be—an animal with long ears.

The chapter on "the Wesley family" may be read by all mothers with great profit. Wesley's mother was a woman of uncommon characteristics. Such women do more to elevate their sex than all the "woman's rights conventions" that have ever been held, or ever will be to the end of the world. She was the daughter of Dr Samuel Annesley, thoroughly educated, and was acquainted with the Greek, Latin and French languages. Any one who will thoroughly study her history, as the noble and devoted mother in the Epworth Rectory, will get more true ideas of the proper management of children than they could obtain from a cart load of ordinary books upon the subject. She left the impress of her own mind and heart upon every child that God gave her, and almost all the acts of her remarkable children were the echoes of her voice of wisdom and of piety. Susanna Wesley was a woman whom coming ages will not forget.

The reader is next introduced to John and Charles Wesley; to Geo Whitefield, who receives noble and generous credit at the hands of Dr Stevens; to Wesley in his connection with the Moravians, from whom he received much knowledge of spiritual things, and the great debt of gratitude which the Methodists owe to that most devoted and devout body of christians, is fully acknowledged. The friends and admirers of Whitefield will see that he has a very prominent place assigned him in this history, notwithstanding his Calvinistic tendencies, and his consequent separation from Mr Wesley, though they remained warm friends to life's end.

Book II treats of the origin and progress of Methodism, 1739-1744. In this part you see the Wesleys and Whitefield itinerating together, and Whitefield itinerating in America. A whole chapter is devoted to "Calvinistic Methodism," in a spirit so unlike the narrow bigotry and contemptible sectarianism which too often make fools of otherwise great and good men. We felt like giving three cheers over this chapter; especially as the author has manifested this thoroughly candid spirit while so many writers of ecclesiastical history have entirely failed to do Methodism and its actors any sort of justice. But as Galileo said, "The world does move." In this part of the history, in the labors of the Wesleys and their coadjutors, we see the true martyr spirit exhibited in herculean christian labors in the midst of appalling persecutions. It is more thrilling than a romance. But this notice is already too long. This volume closes with the death of Whitefield in 1770, 31 years from the origin of Methodism. Two more volumes will complete the series, and bring the history down to 1839, the centennary celebration of this great movement of God's providence and grace. The different denominations should be better acquainted with each other; and in order to this, they should read the standard works published by the several denominations. Of course every Methodist family will read this history.

THE AIMWELL STORIES. By Walter Aimwell. Boston. Gould & Lincoln.

Number seven of these beautiful stories, so popular among the young people, has just been issued by the above-named publishers, to whom we are indebted for a copy. It is entitled "Jessie, or trying to be Somebody." The special aim of this story is to kindle in the hearts of the young a pure and noble ambition, and to encourage them to strive for a good conscience and a good name. We think the "Aimwell Stories" are the best series ever published for children.

There are fifteen towns in Massachusetts in which the American candidate for governor received one vote, seven towns which gave him two votes each, and seventy-four towns in which there were less than ten American votes cast at the late election.

SINGULAR AFFAIR IN CINCINNATI.—A well known and respectable citizen of Cincinnati, Mr. John T. Elliot, broker, has been arrested on a charge of conspiracy to blow up the house of his father-in-law's family with gunpowder. One of the three men who are said to have been employed in the matter has testified that six weeks ago Mr. Elliot employed the three men to cover the whole front of the house of Mr. Sedam, his father-in-law, with tar and filth, which they did, and, subsequently, he applied to them to blow up the house, furnishing them with a keg of powder and other things for the purpose. The witness says his heart failed him in this last work and he gave it up, and informed the police.

Railroad Meeting in Houlton.

At a meeting of persons interested, at the Unitarian meeting house, in Houlton, on Tuesday evening, 23d ult., convened for the purpose of considering the subject of a railroad from Bangor to the Aroostook, the following officers were chosen:—

Leonard Pierce, Esq.—*Chairman.*

Benj. L. Staples, Esq., and John V. Putnam, Esq., *Secretaries.*

L. M. Taber, James C. Madigan, E. D. French, Joseph Kendall and Rufus Mansur, *Committee on Resolutions.*

The Committee reported the following resolutions, which were adopted:

Resolved, That the construction of the Aroostook Railroad is of paramount importance to the people of this County, and imperatively calls upon each and all of us for our best efforts at all times, in season and out of season, to accomplish this great object.

Resolved, That the bill before the last Legislature, granting the credit of the State in aid of the construction of this road, meets our hearty and unanimous approbation; and that we will use all honorable and fair efforts to secure its adoption by the next Legislature.

Resolved, That the people of this State are deeply interested in the early settlement of this fertile region; being the sole proprietor of a vast area of land within it, and an interested proprietor in all the prosperity and wealth of the State; and that the construction of this road would attract thousands of immigrants hither, retain our population within our own borders, and soon convert this wilderness country into a vast cultivated field; increasing the population, augmenting the wealth and taxable property of the State, adding to its internal trade and commerce, and save the people of Aroostook the necessity of seeking a market in and through the dominions of a foreign power.

Resolved, That in our judgment the granting of the aid of the credit of the State for the construction of the Aroostook Railroad, does not involve any political issue known to us, and is not a political question, nor does it have any political bearing.

Resolved, That the thanks of this community are tendered to those Editors of newspapers who support and advocate the construction of the Aroostook Railroad, by State aid; to the Editors of other newspapers in the State who visited this remote region, for their generous sacrifice of time, and for the interest they have displayed in spreading before their readers accurate and favorable descriptions of the fertility and resources of our County; and we hail the unanimity of sentiment and opinion in this respect, which has characterized the "Corps Editorial," and which we believe is the sentiment of the people of the State, as the dawning of a brighter day upon the destinies of Maine, and an earnest that the next Legislature will adopt a policy which will give to Maine that thrift, wealth and prosperity to which her great resources so justly entitle her.

Voted, That a copy of the proceedings of this meeting be furnished the Pioneer for publication—and other papers in the State favorable to the measure, be requested to insert them.

LEO. PIERCE, Chairman.

BENJ. L. STAPLES,
J. V. PUTNAM, } Secretaries.

Various Items.

Nearly half of the assessed valuation of the State of Georgia, is in negroes; 432,124 of these chattels being valued at $237,466,927, and the entire valuation of the State is only $580,055,114.

CONVERSATION. Liberty is a fine thing; it's a great help to conversation, to have leave to say what one will. I have seen a woman of quality, who has not had one grain of wit, entertain a whole company the most agreeably in the world only with her malice.—*Vanbrugh.*

A Cincinnati reporter says of a very elegant female pick-pocket: "She rarely speaks to any one, is always quiet, gentle, smiling and genteel; comes like a sunbeam, and like it, also, *steals* noiselessly away.

The Providence Journal thinks a steam fire engine is needed for the security of that city. The ordinary "machines" were not of much use in the conflagration of the four and five story buildings.

Men however poor should not be slaves—Few men can afford to have their own carriages, every man can afford to have his own opinion.

WEAKNESS.—The best description of weakness that we have ever heard is contained in the wag's query to his wife, when she gave him some chicken broth, if she would not try to coax that chicken to wade through the soup once more.

A CONSIDERATE NIGGER.—"Cæsar," said a planter to his negro, "climb up that tree and thin the branches." The negro showed no disposition to comply, and being pressed for a reason, answered: "Well, look heah, massa, if I go up dar and fall down and broke my neck dat'll be a tousand dollars out of your pocket. Now, why don't you hire an Irishman to go up, and den if he falls and kill's hisself, dar won't be no loss to nobody."

TOO MUCH ROPE.—A divine informed a sailor that the devil was chained up. "How long is the rope?" "Oh," was the dignified reply, "it extends all over the world." "Does it?" inquired Jack; if so, the lubber might as well be loose."

MORE THAN HE ASKED FOR.—"Shall I have your hand?" said an exquisite to a belle, as the dance was about to commence. "With all my heart!" was the soft response.

INGUNS WANTED.—A stranger went into a store in the California mines and inquired of the Missouri shopkeeper if he had any onions. "*Onions! onions!*" repeated the merchant, "no, I haint got no onions." The stranger retired, remarking that he was directed there to find some; but he had scarcely got beyond the shadow of this shanty, before the Missourian, looking wondrous wise, was heard to say to his clerk, "wonder if the darned fool didn't mean *inguns*?"

WARLIKE RUMORS FROM WASHINGTON.—The correspondent of the Tribune, writing on the 24th, says:

> The special meeting of the Cabinet to-day lasted to a late hour this evening. The President is very much depressed by the alarming state of our foreign affairs. He thinks we are on the eve of great events, involving war with Spain, a Protectorate over Mexico, the seizure of Cuba, and danger of a war with France and England. To encounter these grave exigencies, we have no adequate naval force in the Gulf, or that can be sent thither. Our ships are in the Mediterranean, in the Carribean Sea, or on a wasteful and hazardous expedition to Paraguay. The Sonora affair is a mere private speculation of no importance. The present emergency is a question not of a province but of an empire. It involves the whole of Mexico—not Sonora alone.

We are informed that one of the mates of the Thrasea, who aided in flogging Chadwick to death, while recently in New York went on board a ship to apply for a situation as mate. "What ship did you last sail in?" was the question put to him. "The Thrasea," was the answer. "Then you may go on shore, for we want no such officer," was the prompt and just response. The answer, if correctly reported, is creditable to the man who made it, at any rate.—*Bath Times.*

LOCAL AND MAINE NEWS.

☞ The table of the times of "Opening and Closing of the Penobscot River during the last forty years," which some of the papers are copying without credit, was compiled with considerable labor from the files of our paper now in our office, and not elsewhere to be obtained. Under these circumstances, we think the origin of the information should be stated.

Rev. Woodbury M. Fernald of Boston, a minister of the New Church, will preach to-morrow forenoon at Concert Hall—in the afternoon (for Rev. A. Battles, at the Universalist Church.

RAILROAD CHANGE OF TIME.—On and after Monday, (29th) the morning train for Waterville and Portland will leave at 7 30:—arrive at 7 14 P M, as now. Accommodation train leaves at 1,45 P M, arrives at 10,42 A M.

Supreme Judicial Court.

Hathaway J., presiding.

Before the Court.

November 26.

Rufus Dwinel vs Samuel Veazie. This action was brought in 1848, and in 1852 it was defaulted and referred to the Clerk to assess damages. The dft. now moves that the default may be taken off, that the case may be tried by the jury.

The Court—"When the entry upon the docket shows a default to be heard by the Clerk, it is evidence of an agreement of the parties to that effect, for the Court has no authority to make such an entry without such an agreement, and it has no authority to alter the agreements of parties." Motion refused.

William Twomey applied to be admitted to citizenship. On testimony of two gentlemen, with a brogue, that he was worthy, and is well affected towards the government, he was admitted.

Weston for Petitioner.

Horatio G Pitcher vs Elijah Quimby. Contract, and account annexed. Defense, that action was prematurely brought—before breach of contract, and charges excessive in the account.

Porter for pltf. Sanborn for dft.

Ira Wadleigh vs Jacob W. Palmer et al. On account annexed for "use of land for house and scow, also to fasting to a pier on front of lot No. 19, for the season of A. D. 1857"—Judgment for pltf.

Sewall for pltf. Ingersoll for dfts.

ACCIDENT.—We regret to learn that Mr. Charles A. Sanborn, one of the workmen in the Union office, was seriously injured on Thanksgiving evening. He was crossing the foot of Hammond Street, and slipped down in front of a coach, so that one of the wheels passed over him—bruising an arm and one of his hips very badly, but, as we understand, breaking no bones.

ROBBERY AT BUCKSPORT.—IMPORTANT ARREST.—On Thanksgiving day, Messrs. Walker & Bicknell of this city, arrested and lodged in jail an Italian named Louis Guidi, who is understood to be a sort of scene painter, but following no particular business. On the Saturday night previous, the store of Mr. James Emery of Bucksport, had been broken open and robbed of $200 to $300 worth of watches, silver ware, &c. Mr. Emery informed Walker of this robbery, by letter, which was received on the ensuing Tuesday; and Walker, having suspicions of Guidi, ferreted him out and arrested him on the next day but one, and found in his trunk eleven watches, a lot of silver spoons marked "O. M.," and a quantity of clothing supposed to be stolen. We understand there is evidence connecting him with three robberies.

STORE ROBBERY IN FRANKFORT.—The store of Elisha Chick was broken open at Frankfort, on the night of the 22d, and about two dozen handkerchiefs, a counterfeit dollar and a bunch of keys of various sizes, about forty in number, were stolen.

THANKSGIVING REUNION—LARGE FAMILY GATHERING.—Thursday, being the day appointed for the annual Thanksgiving, in twenty-three of the United States, was the occasion of many pleasant gatherings. We think the following is particularly worthy of notice, not only on account of the large number present, but from the circumstances connected with it.

Capt. David W. Swett, of Hampden, entertained his brothers and sisters and their families at his residence, at which time were present thirteen brothers and sisters aged from forty to sixty three years; being *all the children* of the late *Benjamin Swett*, one of the earliest settlers of Hampden, who died four years since at the age of 85, never having lost a child—together with their wives, husbands, children and grand children, in all to the number of *fifty seven* persons, who, together with Rev. and Mrs. Albert Church, of Hampden, made the entire number present *fifty-nine*. Taking into consideration the fact that not one of the brothers and sisters have died, and that they have been scattered at times from Maine to California, we think that no place can show a more interesting family gathering than this?

AROOSTOOK RIVER CLOSED.—We learn from the Pioneer that the Aroostook river closed previous to the 18th, teams having crossed on the ice at the Presque Isle ferry on that day. It is very remarkable for that river to close so early.

The Machias Union, in speaking of the valley of the Machias river, says that there does not exist within the limits of the State a better agricultural and lumbering region, and a better water power for driving all kinds of machinery, and a harbor easy of access by vessels at all seasons of the year.

The New Orleans and Metropolitan Opera Troupe will perform at the Town Hall in this village, on Thursday evening next. This company stands unrivalled as the best travelling company of its kind in the Union. In connection with this troupe are the two sisters Md'lle Josephene, and Md'lle Celestine from the Boston Museum.—*Great Falls Paper.*

It will be seen by advertisement that this troupe will sing at Norombega Hall in this city on Tuesday evening next.

FIRE AT PORTLAND.—We learn from Mr. Stickney, that on Thanksgiving evening about 11½ o'clock, a fire broke out in the clothing store of Mr. Michael Wall, (formerly of this city,) situated on Fore St., near the foot of Exchange St., in Portland, and that the store was mostly destroyed. Mr. Wall's goods were all burned we believe—insured for $1600.—Mr. A. J. York, tailor, occupied rooms overhead, and was also burned out.

MISSING MAN FOUND DEAD.—A few days ago we mentioned the disappearance of Mr. Samuel Sumner of Appleton, in Waldo county. We now learn from the Belfast Age that he was found on Thursday, the 18th inst., on a meadow about one and a half miles from his house—dead. He had apparently laid down and died from exhaustion. He was about seventy nine years of age, and had been a resident of Appleton forty-eight years.

MR. EDITOR:—Please allow us through the columns of the Whig and Courier, to return our hearty thanks to the Officers and Members of Dirigo Engine Company No. 1, of this village, for the very acceptable, but to us unexpected Thanksgiving Present, received from their generous hands on the evening of the 24th inst.

The present consisted of a Bbl. of Flour, a Bbl. of Apples, a Box of Tea and of Raisins, a Turkey, and other articles to the amount of $26,57. The above present was given us in consideration of the presentation to the Dirigoes on the 5th of July last, of a *genuine* big Cake, weighing some sixty pounds, by certain ladies of this village, the Pastor acting as their mouth-piece.

"Cast thy bread upon the waters; for thou shalt find it again after many days."

JOS. P. FRENCH,
LUCRETIA L. FRENCH.

Oldtown, Nov 25th, 1858.

MR. EDITOR.—I noticed in your daily of the 18th that Mr. Adams of Cherryfield has a yoke of yearling steers weighing 1490 pounds, whose girth is five feet three inches. I have a pair one year old the last of last April, weighing 1626 pounds, girthing five feet six inches.

E. O. BUKER.

GAS AT BELFAST.—Gas works have been nearly completed at Belfast, and the gas has been let on. Nearly all the streets have been piped. The gas is manufactured from rosin.

LAUNCHED, at Bath, 23d, a ship called the Lucinda, of 838 tons burthen, and owned by S D Bailey and others.

MECHANICS' HALL IN GARDINER.—The Gardiner Journal says it is proposed by several of its most influential members, that the Mechanics' Association in that city purchase a lot on Water street, (the Cobbossee House premises, if to be had,) and erect a large brick block, with stores in the lower, and a large hall in the upper part of the building.

That well known Native American, Peol Tomer, Esq., has been re elected as representative from the Schoodiac and Quoddy tribes to the Legislature.

"Maine eggs," are advertised in California, as the best in the market. C. Wilson & Co., of Gardiner, do a heavy business in packing and shipping eggs to San Francisco.—*Augusta Age.*

Ten inches of snow fell at Farmington on the 23d.

A passenger coach is now run regularly between Brunswick and Bath, notwithstanding the railroad. The same may be said in regard to Saco and Portland.

The Cobbossee House at Gardiner has been purchased by Mr Benj Johnson, 2d, and is soon to be re opened, as we learn, from the "Rural."

There is a lady now residing in Portland, the mother of three children, who has never weighed over 90 pounds. The youngest living child is a son, 14½ years of age, and weighs twenty pounds more than his mother. A daughter, 16 years of age, weighs forty pounds more than her mother!

SUICIDE.—Mr. Wm. Pyle of Letter O, (Aroostook county) familiarly known as "Uncle Billy Pyle," committed suicide by hanging himself in his barn on the 19th.

GARDINER FLOUR MILLS.—The Rural says. "From 30,000 to 40,000 bushels of wheat are turned into flour here every year. The mills are capable of making 70 bbls. of flour per day.

A MAINE MAN IN LUCK.—Ezra Whitman, Esq., *formerly* of Winthrop, Me., now a resident of Baltimore, Md., has been very successful in obtaining a good share of the premiums awarded by the Virginia State Agricultural Society, at their Fair held at Petersburg, in that State, a few days since. In the list of premiums published in the Baltimore Sun, we find the following were awarded to Mr. Whitman. We congratulate him on his success.

"To E. Whitman, of Baltimore, $5 for the best sub soil plough; $5 for the best hill-side plough, $25 for the best sweep horse-power; $20 for the best thrashing machine; $30 for the best machine for thrashing, cleaning, and separating at one operation; $2,50 for the best food cutter; $15 for the best hay press; $2 for the best steel spade fork; $25 for the most extensive and valuable collection of useful machines and implements, and $10 for the best scoop or scraper. $139,50 at one Fair.

SUDDEN DEATH.—As George Ater and a man by the name of Cartwright were passing along the road, on their way to the woods for Col. Goddard, when within about a mile of Levi Berry's, in Smyrna, Ater suddenly dropped down in the road and expired without a groan. The deceased is said to have been a man of temperate habits, and no satisfactory cause can be assigned for his sudden death. He was a mulatto, and supposed to be about thirty five years of age, is said to be a native of this State, and is believed to have relatives residing either in Franklin or Kennebec county. Further particulars may be learned by the friends or relatives of the deceased, by addressing Post Master, Smyrna.—*Pioneer.*

DEATH UNDER SINGULAR CIRCUMSTANCES.—We are informed that Mr James Foster of Skowhegan took his father's horse, one day this week, and started for Exeter in this county—but was overtaken at Newport by his father, who procured a warrant for his arrest, and placed it in the hands of an officer for execution. The officer, finding the young man very sick, however, declined making the arrest at once, although urged to do so—and the father, thereupon took his horse, and left for home. In a short time the young man died. We do not know the nature of the sickness which caused his death; but understand he had been subject to periods of mental derangement.

COURT HOUSE FOR AROOSTOOK COUNTY. We have been favored by Messrs. Goddard & Goodenow (says the Lewiston Journal) with an opportunity to examine the plan and drawing for a Court House for Aroostook, to be erected at Houlton next summer. The plan and specifications were prepared by Gridley J. F. Bryant, Esq, of Boston. The plans are prepared in the best manner. The court house is to be constructed of brick, and is to be sixty feet by forty-four. The cost, it is thought, will be about $30,000.

MARINE MEMORANDA.—Schooner Frederic Sherer, of St. George, Me., Sherer, four days from Boston for Galveston, was boarded 15th inst, lat. 35:35, lon. 71:16, by barque Magdalena of New York. The schooner had had very heavy weather, and lost part of her deck load.

Brig Sheet Anchor of Bath, Rowse, had heavy gales for ten days previous to her arrival. On the 8th inst, off Hatteras, had her mainmast head carried away.

Ship Mayflower, Hoyt, of Bath, from New Orleans, Oct, 29, for Trieste, put into New York, 23d, to repair damages, having been ashore on Florida reefs, 5th inst.

RUMORED DEPARTURE OF WALKER.—NEW YORK, Nov 24. The Times Washington correspondent, in reporting the doubtful rumor that Gen. Walker had managed to get off with a portion of his recruits, says it seems that, anticipating difficulty at Mobile from interference by the Collector, he selected about five hundred men, who rendezvoused at another smaller port, where the revenue officers sympathize sufficiently in his plans to be readily convinced of the legality of the enterprise.—From this it is supposed the party put to sea within the last day or two, and as the point of intended departure was not suspected, it is thought scarcely probable that they can be intercepted, except it be when they approach the coast of Nicaragua. The excitement arising out of the interference with the Mobile party was designed to be availed of to cover the more important movement elsewhere.

The Kerosene Oil is distilled from cannel coal. The actual cost per gallon, after works are once put in operation, we are told is said to be not over 30 or 37½ cents. The article retails at $1,25 per gallon, and with some half a dozen manufactories now in operation it is impossible to one quarter part supply the demand. It is stated in the papers that in New York, with ability to furnish only 10,000 gallons per week the orders amount to 50,000 gallons per week. In all parts of the country it is coming into use for illumination as fast as the limit of supply of oil will admit.

THE OCTOBER STORM.—The New York Herald prints a tabular statement of the vessels damaged by the recent terrible gales in the North Atlantic, by which it appears that the loss is not probably not less than $2,000,000. Twenty-four lives were lost.

SPECIAL NOTICES.

P. K.

PERRY DAVIS—SIR, The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, Severe Chills, Weariness, Common Colds, Hoarseness, CHOLERA, Cholera Morbus, Diarrhea, Dysentery, Toothache, &c., there is nothing better than the Pain Killer. I have this hour recovered from a severe attack of the Sick Headache by using two tea-spoonsful, taken at about 30 minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the Cholera during the summer of 1849. Traveling amid heat, dust, toil, change of diet and exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks accompanied with pain; for which the Pain Killer was a sovereign remedy, a tea spoonful curing the worst case in an hour, or at most half a day. I have heard many cases, the country over of dysentery being cured by its use. Put in the teeth it would stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolicited testimonial in its favor. D. T. TAYLOR, Jr.,
Minister of the Gospel.

Advices from Japan say the cholera was carrying off a great number of its inhabitants.—It was carried there, it is said, by an American man-of-war, which circumstance had prejudiced the people against foreigners.

Washington Items.

WASHINGTON, 26th.

Conflicting reports have been published concerning the objects of the recent departure of Judge Hose and Ben McCulloch, both of Texas for Sonora. The truth is the former has been appointed Consul to Guaymas, and the latter accompanies him on business concerning himself, and in no manner connected with this government.

The balance in the Treasury on Monday was $6,060,000. The receipts for the week ending that day were 447,000. The amount of drafts paid was $1,175,000, and amount of drafts issued $1,580,000, a reduction from last week of $1,113,000.

Information has reached here, in such a form as to place the fact beyond question, that a large number of Mexicans, residing in Sonora, have entered into a league to revolutionize that State with a view to its annexation to the United States.

A despatch from Mobile states that much excitement still exists in that city, growing out of the refusal to grant a clearance to the Alice Painter.

The Secretary of State has not, as reported demanded an explanation of the Spanish Minister concerning the object of that government in sending an armed force against Mexico, although a private interview with him was requested by Mr Cass on, it is supposed, that subject.

The financial report of the Secretary of the Treasury is now nearly complete.

Later from Vera Cruz.

Dates from the city of Mexico are to the 15th inst. Gen. Miramon had arrived there.—The Liberals occupied Zacatecas, and elsewhere had been successful. Zuloaga was levying contributions to repair the fortifications.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington (under the Act of 1837)

76 State St., opposite Kilby St.,

BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON, Commissioner of Patents"

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, late Commissioner of Patents"

"Mr R H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART"

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it not a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st

A Perfect Security against all manner of Fraud or Counterfeiting on Paper.—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices.

Bank Checks—35 cts per lb.
Bank Bills—$16 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts per lb
Railroad Stocks and Bonds—40 cts per lb
Bank and State Stocks—40 cts per lb,
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts per lb

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts a lb

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances, both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and *not elsewhere*. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS—One Copy One year, $2; One Copy, Six Months $1, Five Copies Six Months $4, Ten Copies, Six Months $8, Ten Copies, Twelve months $15, Fifteen Copies, 12 Months $22. Twenty Copies, Twelve Months, $28, in advance
